PRESS RELEASE

Public Advisory 02 October 2017

Message from the Customs Management Team

The general Public is hereby advised, that all importations made under the Customs (Import Duty Exemption) Order 2017, which expires on the 31st of October 2017, does not require the prior written approval of the Collector of Customs. Individuals are not required to request these exemptions.

The Department has created a specific Customs Processing Code 494, which when entered into the system will automatically calculate the Customs Duty and the Customs Processing Fee at 0%. This code has been provided to all Brokers. As a reminder all importations require the assistance of a broker to make a declaration on behalf of the Importer. The exception is for importations made by the Turks and Caicos Islands Government, and importations which include only three commodities, in which case you may visit our Providenciales office to utilize the front terminal, and limited assistance will be provided by an officer.

Should you have any questions or concerns, feel free to contact us.
